

## **Safety, Health & Environmental**

Red Stone Drilling Limited are committed to a policy of Safety, Health & Environmental Management which is integral to the company's normal operations. Our aim is to ensure the health, safety and welfare of all employees. This responsibility also applies to other persons who may be affected by the company's activities. Every employee is required to comply fully with the company's Safety, Health & Environmental Policies.

In meeting these responsibilities and complying with relevant legislation Red Stone Drilling Limited has the following specific objectives:

- To identify foreseeable hazards which present a risk to the health and safety of Red Stone Drilling Limited employees
- To take action to eliminate or minimise health and safety risks by the use of appropriate control measures
- To encourage the involvement of employee representation in health and safety and the setting and maintenance of satisfactory standards
- To develop safe systems of work which are practicable and appropriate to the experience and training of the employees involved
- To provide information, instruction, training and supervision to ensure that employees understand our health and safety standards and their role in achieving them
- To regularly audit Health and Safety Standards and the operation of safe systems of work to ensure that these objectives are achieved in practice
- To investigate and take positive remedial action on any health, environmental and safety problems which are identified

All employees are encouraged to contribute actively towards improving Red Stone Drilling Limited's safety, health & environmental systems and achieving our goal of zero accidents.

Our Safety, Health & Environmental Policy will be reviewed at least annually to monitor its effectiveness and to ensure that it reflects changing needs and circumstances.

We are committed to the implementation and maintenance of Red Stone Drilling Limited's Safety, Health & Environmental Policies to ensure a safe and responsible workplace environment.
